Bertolizio, Gianluca; Disma, Nicola; Engelhardt, Thomas (2022): After nectarine: how should we provide anesthesia for neonates? In: *Current opinion in anaesthesiology* 35 (3), S. 337–342. DOI: 10.1097/ACO.0000000000001126.

Bruin, L. de; Pasma, W.; van der Werff, D. B. M.; Schouten, T. A. N. J.; Haas, F.; van der Zee, D. C. et al. (2015): Perioperative hospital mortality at a tertiary paediatric institution. In: *British journal of anaesthesia* 115 (4), S. 608–615. DOI: 10.1093/bja/aev286.

Carvalho, Clístenes C. de; Rgueira, Stéphanie L. P. A.; Souza, Ana Beatriz S.; Medeiros, Lucas M. L. F.; Manoel, Marielle B. S.; Da Silva, Danielle M. et al. (2022): Videolaryngoscopes versus direct laryngoscopes in children: Ranking systematic review with network meta-analyses of randomized clinical trials. In: *Paediatric anaesthesia* 32 (9), S. 1000–1014. DOI: 10.1111/pan.14521.

Cote, Charles J.; Lerman, Jerrold; Todres, I. David (2009): A practice of anesthesia for infants and children. "An expert consult title"--Cover. - "A practice of anesthesia for infants and children" pocket reference guide inserted. 4th ed. Philadelphia, PA: Saunders/Elsevier (Expert consult).

Crockett, Christy J.; Nylander, Veronica E.; Wooten, Elizabeth J.; Menser, Carrie C. (2022): The emergence noise reduction quality improvement initiative to enhance patient safety and quality of care. In: *Paediatric anaesthesia* 32 (11), S. 1262–1269. DOI: 10.1111/pan.14553.

Dias, Patricia L.; Greenberg, Rachel G.; Goldberg, Ronald N.; Fisher, Kimberley; Tanaka, David T. (2021): Augmented Reality-Assisted Video Laryngoscopy and Simulated Neonatal Intubations: A Pilot Study. In: *Pediatrics* 147 (3). DOI: 10.1542/peds.2020-005009.

Disma, Nicola; Virag, Katalin; Riva, Thomas; Kaufmann, Jost; Engelhardt, Thomas; Habre, Walid (2021): Difficult tracheal intubation in neonates and infants. NEonate and Children audiT of Anaesthesia pRactice IN Europe (NECTARINE): a prospective European multicentre observational study. In: *British journal of anaesthesia* 126 (6), S. 1173–1181. DOI: 10.1016/j.bja.2021.02.021.

Fideler, Frank (2022): Anästhesie bei Neu- und Frühgeborenen – worauf kommt es an? In: *Fideler F: Anästhesie bei Neu- und Frühgeborenen – worauf kommt es an?* (5-2022), S. 199–217. DOI: 10.19224/ai2022.199.

Frykholm, Peter; Disma, Nicola; Andersson, Hanna; Beck, Christiane; Bouvet, Lionel; Cercueil, Eloise et al. (2022): Pre-operative fasting in children: A guideline from the European Society of Anaesthesiology and Intensive Care. In: *European journal of anaesthesiology* 39 (1), S. 4–25. DOI: 10.1097/EJA.0000000000001599.

Fuchs, Alexander; Disma, Nicola; Virág, Katalin; Ulmer, Francis; Habre, Walid; Graaff, Jurgen C. de; Riva, Thomas (2022): Peri-operative red blood cell transfusion in neonates and infants: NEonate and Children audiT of Anaesthesia pRactice IN Europe: A prospective European multicentre observational study. In: *European journal of anaesthesiology* 39 (3), S. 252–260. DOI: 10.1097/EJA.0000000000001646.

Garcia-Marcinkiewicz, Annery G.; Kovatsis, Pete G.; Hunyady, Agnes I.; Olomu, Patrick N.; Zhang, Bingqing; Sathyamoorthy, Madhankumar et al. (2020): First-attempt success rate of video laryngoscopy in small infants (VISI): a multicentre, randomised controlled trial. In: *Lancet (London, England)* 396 (10266), S. 1905–1913. DOI: 10.1016/S0140-6736(20)32532-0.

- Garcia-Marcinkiewicz, Annery G.; Matava, Clyde T. (2022): Safe in the first attempt: teaching neonatal airway management. In: *Current opinion in anaesthesiology* 35 (3), S. 329–336. DOI: 10.1097/ACO.0000000000001128.
- Ghaferi, Amir A.; Birkmeyer, John D.; Dimick, Justin B. (2009): Variation in hospital mortality associated with inpatient surgery. In: *The New England journal of medicine* 361 (14), S. 1368–1375. DOI: 10.1056/NEJMs0903048.
- Hentschel, Roland (2019): Das Neugeborene als Notfallpatient – Teil 1. In: *Notf.med. up2date* 14 (02), S. 189–205. DOI: 10.1055/a-0589-7864.
- Hentschel, Roland (2019): Das Neugeborene als Notfallpatient – Teil 2. In: *Notf.med. up2date* 14 (04), S. 441–457. DOI: 10.1055/a-0883-6268.
